

Sortimo®

From a simple case to high tech products

Sortimo®

Born from a simple idea, Sortimo has become a synonym for quality. For many years our application of our specific modular product range has made work easier for the [mobile professional and the specialist trades](#).

Today Sortimo is a valued in-vehicle equipment partner of the automotive industry where functionality, [safety](#) and load area concepts are appreciated. Increasing demand for [our products](#) has resulted in worldwide company growth, making us a market leader in the industry. We've achieved this through our overall awareness of [quality](#) in the development of our vast number of Sortimo products.

Would you like to know more about us?

With more than 35 years of company history, we've gained a lot of experience during this time and found lots of good quality partners. Sortimo has grown from a 3 people operation to a worldwide company with more than 480 employees – and we still keep on the look out for new talents to add to our team.
